

We are looking for convenors to organize ESRS Research and Study Groups!

We want to encourage Society members to participate in thematic or regional Research and Study Groups (RSGs). The ESRS has a budget of €1500 to help establish RSGs. We anticipate giving three groups a budget of €500 per year, depending on budgetary constraints, the needs of Study Groups, and the number of Study Groups formed. We also welcome applications to establish RSGs that do not need funding support.

If you are interested in convening a group, either formalizing existing activities you are involved in, or convening a new group, please email no more than a one-page outline of your proposed activities to María Jesús Rivera at mjesus.rivera@ehu.eus. If you wish to apply for funding, please send an additional page detailing how you plan to use the requested funding to advance the activity of your research and study group. Please ensure that you have read and complied with the “**Terms of Reference 2020**”.

Please send applications by April 8th, 2020. The Executive Committee will decide on proposals and inform convenors by May 8th. If funding permits, a second call for proposals will be issued with a September 1st deadline.

María Jesús Rivera, on behalf of the Executive Committee.
